

Element Materials Technology Stockholm, Kista

Advanced calibration services for
critical measurement precision.

We operate a specialized calibration laboratory as part of Element Metech, the calibration division of Element. Our team in Stockholm, Kista delivers comprehensive calibration services to diverse sectors, ensuring measurement accuracy and operational reliability.

Our specialized expertise:

- **Advanced Electrical Instruments Calibration**

We specialize in precise calibration of electrical instruments, ensuring accuracy and reliability for critical measurement applications.

- **Accredited Pipette Calibration**

We provide specialized, accredited calibration services for pipettes, crucial for laboratory accuracy and consistency.

- **Expert Fiber Splicer Servicing**

We deliver specialized maintenance and calibration for fiber splicers, supporting telecommunications and data infrastructure.

- **Comprehensive Measurement Solutions**

Our capabilities extend to dimensional, mechanical, optical, and acoustic equipment calibration, offering complete metrology services.

Why choose Element Stockholm?

We prioritize flexible service delivery, offering optimized solutions that help you avoid production disturbances and costly downtime. Our specialized capabilities in electrical instruments, pipette calibration, and fiber splicer servicing set us apart. We value operational efficiency and work collaboratively with clients to provide comprehensive metrological consultancy services.

Success in numbers

As part of Element Metech, we contribute to the company's extensive calibration and metrology network, supporting industries with precise measurement needs across multiple parameters and diverse sectors.

Take the next step

We're here to support your calibration and metrology needs.
