

Element Metech Gothenburg

Your single-source calibration
authority.

We operate as a vital part of Element Metech, the dedicated calibration division of Element. Our team in Gothenburg helps clients maintain operational excellence by delivering precise calibration services, measuring solutions, and metrological consultancy that minimize production disruption.

Our specialized expertise:

- **Laboratory Equipment Calibration Excellence**
Our expertise in laboratory equipment calibration helps maintain the integrity of testing and research operations across diverse sectors.
- **Specialized Optical & Acoustic Equipment Services**
Our calibration capabilities extend to optical and acoustic equipment, ensuring precise performance across specialized applications.
- **Comprehensive Dimensional & Mechanical Calibration**
We provide calibration for dimensional measuring equipment, mechanical gauges, and transducers with meticulous attention to detail.
- **Versatile Electrical Instrument Calibration**
We specialize in calibrating a wide range of electrical instruments with precision and reliability to ensure accurate measurements.

Why choose Element Gothenburg?

We deliver flexible calibration solutions designed specifically to minimize operational disruption. Our comprehensive range of capabilities means we can serve as your single-source calibration partner across multiple equipment types and industries. We prioritize responsive service and adaptable approaches, ensuring your measuring systems maintain accuracy without compromising productivity.

Success by the numbers

As a key facility within Element Metech's calibration division, we serve customers across diverse sectors with consistently reliable results. Our technical expertise and commitment to quality have established us as a trusted calibration partner for organizations that demand precision and dependability.

Take the next step

We're here to support your calibration and metrology needs with our specialized expertise.

Schedule a consultation to discuss your calibration requirements, or **request a calibration service** and experience our efficient, disruption-minimizing approach.

Accreditations and Approvals

We meet ISO 17025, ISO 9001, ISO 14001, and ISO 45001 standards, demonstrating our commitment to quality, environmental responsibility, and workplace safety.
