

Element Metech Ludvika

Calibration excellence that keeps
industry in perfect measure.

We operate as a key part of Element Metech, the specialized calibration division of Element. Our team in Ludvika helps clients maintain operational precision and efficiency by delivering flexible calibration solutions designed to minimize production disruption.

Our specialized expertise:

- **Comprehensive Electrical Calibration**

We specialize in precise calibration of electrical instruments, ensuring measurement accuracy and system reliability across diverse applications.

- **Precision Dimensional Measurement**

We provide meticulous calibration services for dimensional measuring equipment with exacting standards and traceable results.

- **Advanced Mechanical Calibration**

Our calibration capabilities for mechanical gauges and transducers ensure consistent performance and accurate readings for critical operations.

- **Specialized Equipment Services**

We deliver expert calibration for optical, acoustic, and laboratory equipment, maintaining the integrity of your specialized measurement systems.

Why choose Element Ludvika?

We design our calibration services around your operational needs, focusing on minimizing production disruptions and downtime. Our comprehensive capabilities allow us to serve as your single-source calibration partner across multiple equipment types. We combine technical precision with practical flexibility, ensuring your measuring systems maintain accuracy without compromising productivity.

Success by the numbers

As an integral part of Element Metech's calibration division, we serve clients across diverse industries with consistently reliable calibration services. Our technical expertise and adaptable approach have established us as a trusted metrology partner for organizations where precision is non-negotiable.

Take the next step

Request a quote. We're here to support your calibration and metrology needs with our specialized expertise.

Accreditations and Approvals

We meet ISO 17025, ISO 9001, ISO 14001, and ISO 45001 standards, demonstrating our commitment to quality, environmental responsibility, and workplace safety in all calibration services.
