

Element Materials Technology Oulu

Delivering precision and reliability in
calibration and metrology services.

We operate a specialized calibration and metrology laboratory as part of Element's Metech network. Our team in Oulu delivers high-quality services to clients throughout Europe, helping them maintain operational excellence and minimize downtime.

Our specialized expertise:

- **Comprehensive Electrical and Temperature Calibration**
specialize in precise calibration of electrical and temperature equipment to ensure accuracy and reliability.
- **Advanced Dimensional and Pressure Measurement**
We provide expert calibration services for dimensional, pressure, and force equipment with meticulous attention to detail.
- **Flexible On-Site Support Services**
Our in-house experts offer on-site calibration and consultation, minimizing disruption to your operations.
- **Professional Torque and Mass Calibration**
We deliver specialized calibration for torque and mass equipment, helping maintain operational integrity and compliance.

Why choose Element Oulu?

We prioritize flexible service delivery, offering optimized solutions that help you avoid production disturbances and costly downtime. Our state-of-the-art facility and experienced technicians ensure high-quality calibration services tailored to your specific needs. We value operational efficiency and work collaboratively with clients to provide comprehensive measurement solutions.

Success by the numbers

As part of Element's Metech network, we contribute to the company's extensive European presence in calibration and metrology services, supporting industries with precise measurement needs across multiple parameters.

Take the next step

We're here to support your calibration and metrology needs.

Request a quote to discuss your specific requirements, or **schedule a consultation** and experience our flexible service approach.

Accreditations and approvals

We maintain ISO 9001 and ISO 14001 certifications, ensuring our processes meet international quality and environmental standards.
